Cassie Video Uploader — complete upload script (upload_api.sh)

Runs on the author's Mac. Uses the open-source youtubeuploader CLI (YouTube Data API v3, OAuth 2.0). Usage:
`upload_api.sh ep1.mp4 cover.jpg "title" "description" "tag1,tag2" "playlist"`

```
#!/bin/zsh
# 用 YouTube Data API（youtubeuploader）上传一集，不开浏览器（第一次授权除外）。
# 用法：upload_api.sh <mp4> <封面jpg> <标题> <简介，\n 表示换行> <逗号分隔标签> [播放列表名]
# 前提：本目录有 client_secrets.json（Google Cloud 下载）；第一次运行会弹浏览器授权一次，之后用 request.token。
# 注意：项目没通过 Google 审核前，API 传的视频会被强制设为私有。
set -e
cd ${0:A:h}
MP4=${1:A}; COVER=${2:A}; TITLE=$3; DESC=$4; TAGS=$5; PL=${6:-nudgecode 算法图解}
META=$(mktemp -t ytmeta).json
